5) Ringcraft

(a) Syllabus Requirement

Candidates will be expected to demonstrate that they are in control of the ring and be able to run it efficiently. They will be observed in their placement of the ring equipment and their method of examining the dog and its movement.

A candidate will be expected to demonstrate efficient communication with show officials and exhibitors.

(b) Interpretation

This category incorporates time spent in both judging and stewarding. A lot of information will be gained by just watching and observing other judges at work. Time spent stewarding will enable familiarisation with ring procedures and build confidence when judging.

This is not a subject that can be taught as much as one which will be gained with experience. Ribbon Parades and Open Shows are to be encouraged as these provide invaluable experience for the judge just starting out.

The following topics are important aspects of ringcraft and form the basis upon which candidates will be assessed.

(i) Suitability for prevailing conditions and breeds judged.
(ii) Ring Craft
• (Setting Up Ring)
   Places place markers, entrances and exits with regard to shape of
   ring, position of sun, and other physical conditions.
• (Communication with Steward)
   Informs Steward of what he/she requires exhibits to do when they enter
   the ring and where the dogs are to be positioned for judging.
• (Position of table and exhibits)
   Positions table and dogs in positions which take account of the size of
   the entry, is fair to all, and allows for movement to places and exits.
• (Clear Directions)
   Gives directions and placings which are clear to both exhibitors and
   Stewards. (Efficiency of judge’s movement)
   Assesses all exhibits fairly whilst eliminating all unnecessary
   judge’s movement.
• (Speed at judging)
   Assess whether or not excessive time is taken bearing in mind
   conditions, breed or group. Candidates should judge dogs at the rate
   of approximately 2 minutes per dog.

(iii) Manner and Attitude
• (Appropriate)
   Displays an appropriate manner and attitude for all eventualities,
   always maintaining decorum and courtesy.
• (Friendly, helpful, considerate, confident)
   Displays courtesy, respect, friendliness, helpfulness and consideration
   when speaking to Stewards, Exhibitors and dogs. Displays a relaxed yet
   confident manner when approaching dogs and in making decisions.

(iv) Physical examination
• (Approach to Exhibits)
   Approaches each dog in a considerate and suitable manner for the
   breed concerned.
• (Appropriate Tabling)
   Tables correct breeds.
• (Knowledgeable Examination)
   Examines each exhibit showing a knowledge of the conformation and
   particular characteristics and requirements of each.
• (Efficient Examination)
   Examines each exhibit thoroughly yet efficiently.
• (Confident Handling)
   Examines each exhibit in a positive and confident manner.
• (Consistent Examination)
   Examines each exhibit in a similar manner.
• (Consistent Movement)
   Moves dogs in a similar manner, over similar terrain, to give each
   exhibit an equal opportunity to gait correctly.

(v) Breed Knowledge and Observation Skills
• (Knowledge of Breed Standards)
   Shows knowledge of requirements for each breed.
• (Application of Knowledge)
   Recognises typical characteristics of each breed.
• (Assessment of Conformation)
   Recognises conformity with, and departures from the ideal as required
   by the Standard for each exhibit.
• (Assessment of Movement)
   Recognises sound and unsound movement and shows an
   understanding of causes of unsound movement.
• (Use of Terminology)
   Uses correct canine terminology when describing exhibits.
• (Justification of Placings)
Explains why placings have been made, showing an understanding of the requirements of each breed and displaying good observation skills when comparing exhibits.

- (Verbal Critique)
  Is able to give a brief and accurate description of selected dogs.

(c) Method of Acquisition

- Watch judges at Shows and Ribbon Parades and observe their manner, the way they use the ring and if they appear to be authoritative.
- Attend training Parades held for the purpose of assessing candidates ability. Objective criticism should be offered by those watching. Assessing another judge’s performance is just as valuable as being assessed. It is important that all criticism should be constructive and discreetly offered.
- Methods of exactly how a dog is to be judged should be discussed. Refer to “All About Showing Dogs” by David Cavill for a step by step guide to his interpretation of this procedure. Bear in mind that this is only a guide and not a rigid formula. Be uniform and consistent in the method of handling and procedure in order to be fair to every exhibit.
- Make use of videos and films of shows or those made specially for training in ringcraft and judging procedures. Study handouts of relevant material distributed at branch training meetings.
- Read and review the list of recommended reading.

(d) Assessment

- Judging at Training Ribbon Parades and being assessed by experienced judges.
- Attending mock practical examinations.
- Role playing exercises with use of whiteboard or models.

6) Breed Knowledge

(a) Syllabus Requirements

“Candidates will be required to confidently answer detailed questions for the Group to which they aspire on New Zealand Kennel Club approved Breed Standards in the form of:

(i) Written multiple choice questions
(ii) The application of the Standards to practical judging where applicable.”

(b) Interpretation

Fundamentally breed knowledge is the most important aspect of judging dogs, which is the integration of breed knowledge, canine anatomy, terminology, ringcraft and the prevailing Rules and Regulations appropriate to the event.

(c) Method of Acquisition of Knowledge
(i) Stewarding - Stewarding is an ideal opportunity to study dogs at close quarters. Make yourself available for stewarding for the group to which you are aspiring. Discuss placings with the judge if and when a discreet opportunity arises.

(ii) Attending workshops, seminars, lectures, discussion groups, etc. Attend as many of these as possible, even if you are not sitting examinations for the breed or group covered as there is always something to learn whether from the presenters or others present. Remember the presenters have given their time for your benefit. If you are unable to attend an important lecture in your area ask the Branch Secretary or someone who is attending to collect any handouts or other material for you.

(iii) Attending kennel visits - Take advantage of any organised kennel visits. Most breeders are willing to help, and group visits minimise the inconvenience to breeders and in addition provide the benefits of group discussion. Where these have been arranged, do try to attend and if unable to, inform the organisers in good time.

(iv) Preparing articles or analyses - Tutors may require candidates to prepare short articles on, or an analysis of, particular aspects of a breed or breeds, e.g. the major differences between a Lhasa Apso and a Shih Tzu. Not only are these a very useful way of acquiring breed knowledge, but if copies are made and exchanged they can be of benefit to others.

(v) Videos based training - Videos of breeds and shows are available from a number of sources including New Zealand Kennel Club, local clubs local breeders or exhibitors and overseas sources. If you can, watch the video with others. Run through it once, discuss it and then run through it again, stopping it or slowing it when points discussed are shown. Make brief notes on what you have learned, to assist revision.

(vi) Correspondence tasks - Tutors may require you to complete a corresponding task, e.g. to read material and answer questions. These tasks may already have been used in your area several times. The benefit lies in completing the task yourself rather than getting the correct answers, so avoid the temptation to borrow someone else’s answers from an earlier assignment.

(vii) Guided observation - This is intended as an appreciation of good ringcraft and technique. It is also an opportunity to apply knowledge gained from other sources. When on your own, try and identify if the judge is looking for a specific aspect, for example a breed characteristic. As an exercise, go over the dogs in your mind, place them by applying the Breed Standard, and mentally justify your decisions in words as if you were discussing your placings. In addition, if in a group, or with a tutor share your ideas and questions with the others but be discreet. Criticisms of individual dogs, exhibitors or judges should not be included. Discussions can be overheard and may be misinterpreted.

(viii) Mock judging - Branches will organise mock practical examinations from time to time under the guidance of experienced judges. These are a most valuable opportunity to apply the knowledge you have learned, to develop your skills of ringcraft, and to build up your confidence in your ability to handle both the judging situation and the questioning which will follow your placing of the dogs. You will be asked to provide either verbal or written critiques, depending on the time, numbers, etc. Both are excellent at developing the skills you will be assessed on in a real examination.

(ix) Acting as a tutor, lecturer, host for kennel visit, etc. Although you are a candidate for a particular group you probably have considerable knowledge of some breed or other group and you may be asked to share this with the candidates aspiring to these groups. Not only does this give you the opportunity to repay some of the time given to your training by others, but it frequently helps you discover what you need to look for when you are on the receiving end, and vice versa.
