

Practicing Certificates

In 2017 NZDJA introduced a Practicing Certificate for all judges who wish to apply. Judges who are participating in on-going education, mentoring and associated judging activities can now apply to the board for recognition of their current status. This is identified on the NZDJA website judges list with the letters "PC" in the Practicing Certificate column. The certificate is valid for 2 years and a new set of qualifying points must be met and submitted with the application for renewal. This gives enquiring clubs the confidence that judges with a current practicing certificate have met the criteria as outlined in our regulations.
